

Are you or your partner living with dementia during the COVID-19 pandemic?

University of Michigan researchers are seeking couples, with one partner living with dementia, to understand their daily experiences during the COVID-19 (coronavirus) pandemic

COVID-19 CARE Partners Study

MICHIGAN MEDICINE
UNIVERSITY OF MICHIGAN

Who can participate?

- Heterosexual couples (married or living together) who live in Michigan
- One partner has early symptoms of dementia or a diagnosis of dementia within about 5 years

What is involved?

- One 45- to 60-minute recorded phone interview
- 7 days of brief morning and evening recorded phone interviews

Each partner will receive up to \$60 after completing the study.

Are you interested in participating?

- Call us at (734) 232-4565 or email C19carepartners@umich.edu
- Please mention the COVID-19 CARE Partners Study along with your full name and phone number in your message
