

Speaker Series

A Michigan Alzheimer's Disease Center program for the public and professionals.

Our monthly Speaker Series provides educational information on a variety of dementia and caregiving related topics. Our target audience for this series is professionals who may work in dementia care and community members who may be interested in learning more. The goal of the series is to increase awareness around these topics and to provide a space for to have questions answered.

To register

Registration is required. Please register online at michmed.org/AOnNj
