Speaker Series

A Michigan Alzheimer’s Disease Center program for the public and professionals.

Our monthly Speaker Series provides educational information on a variety of dementia and caregiving related topics. Our target audience for this series is professionals who may work in dementia care and community members who may be interested in learning more. The goal of the series is to increase awareness around these topics and to provide a space to have questions answered.

To register

Registration is required. Please register online at michmed.org/RW35w

To learn more and for future Speaker Series dates and topics, please visit alzheimers.med.umich.edu/events

Wednesday, March 30
12:00 - 1:00pm

“New and Exciting Research at the Michigan ADRC”

Join us to hear from three of our study teams. You’ll hear more about our new studies, have an opportunity to get your questions answered, and learn if you might qualify to join.
